YANG WU

Software Engineer • Full-stack Developer

ABOUT ME

I am a web developer with a primary focus on combining useful functions with creative designs. With communication and research skills I gained from my sociology background, I aim to join a team with link-minded people to build web applications that make our daily life more enjoyable.

EDUCATION

2020 - 2021 • **General Assembly**
Software Engineering Immersive

2017 - 2020 • **University of Sydney**
BA(Honours), Sociology, First Class

TECH STACK

- Javascript & jquery
- React.js
- Bootstrap
- HTML5 & CSS
- Node.js
- Express.js
- Ruby & Ruby on Rails
- MongoDB
- Git & GitHub
- Vue.js

PROJECTS

I Feel Like... [Group Project]

A web application for people to explore different restaurants around Sydney, create events in chosen restaurants and invite others to join! **Check Demo**
- **Working Progress:** Functional with chrome CORS extension
- **Tech Stack:** React.js, Ruby on Rails, Bootstrap

离谱Discordance

A desktop application for podcast: 离谱Discordance. User can listen to and read about each episode and speaker. After creating an account, they can curate the list of liked episodes. **Check Demo**
- **Tech Stack:** Ruby on Rails, Bootstrap, PostgreSQL, HTML5, CSS, Heroku

Tic-Tac-Toe

Developed a 'tic-tac-toe' game as my first individual project. 3x3 gameboard for 2 players. Player's success record can be tracked. **Check Demo**
- **Tech Stack:** HTML5, CSS, Javascript

EXPERIENCE

2021 - **离谱Discordance Podcast**
Cofounder & Cohost

- Co-founded 离谱Discordance, a Mandarin-language podcast about Chinese diaspora, gender, media and pop culture.
- Driving projects to successful completion by doing extensive research, planning out topics and structures creatively, managing guests and launching on various podcast platforms.

2019 - 2020 **Refugee Language Program**
Volunteer English Tutor

- Volunteered as tutor (one-on-one) or group discussion facilitator every fortnight in school terms
- Explained and broke down complex linguistic concepts and helped refugees to build social networks in Australia.
